WANT A BRANCH LINCOLN WAY VIA TONOPAH

The Automobile club of Southern California has been urging for several years that an alternate routing of the Lincoln highway from Ely, Nev., southwest by way of Goldfield and Tonopah, Nev., and Big Pine and Mojave, to Los Angeles, be designated by the Lincoln Highway association.

It has been the contention of the southern organization that more than 75 per cent of transcontinental tourists heading west over the Lincoln highway detour southwest at Ely, Nev., for the southern metropolis and that with the improvement of the California section of this road and proper effort in Nevada for the improvement of the route from Ely to Oasis, at the state line, even more of the western bound traffic would seek the southern city.

It has been pointed out that should the route from Ely to Los Angeles be designated as the southern branch of the Lincoln highway, an open route would be provided to the Pacific coast from Salt Lake throughout the winter. The road suggested has been under investigation by the Lincoln Highway association for some years and was driven in 1917 by H. C. Ostermann, field secretary, and A. F. Belmont, secretary of the National association, who at that time took careful note as to the condition of the route, finding it in the main in practically as good condition in Nevada as the Lincoln highway itself from Ely to Reno. The route from Ely to Los Angeles has been marked as the "Midland Trail." The Lincoln Highway association's logging indicates that the distance is 572 miles as compared with 615 miles from Ely to San Francisco on the Lincoln highway.

F. A. Seiberling, president of the Lincoln Highway association, recently spent some time in Los Angeles and the question of the designation of the Midland Trail as a branch route of the Lincoln highway was taken up with him strongly through the organizations of southern California. Mr. Seiberling expressed himself as being favorably disposed toward the designation of the southern branch and stated that the matter would be carefully considered at the next directors' meeting of the association.

The recent passage of the \$40,000,000 bond issue in California will make possible the improvement of about 200 miles or more of the Midland Trail between Oasis on the California-Nevada state line and Los Angeles. The co-operation of the Automobile club of Southern California and other strong organizations of the southwest has been pledged in an effort to bring about the improvement of the Midland Trail from Oasis to Ely.

The action of the Lincoln Highway association in connection with this important matter will be awaited with the keenest interest on the Pacific coast. Southern California has always taken the liveliest interest in the work of the Lincoln Highway association.

REPUBLICAN WOMAN IS HEAD OF ORGANIZATION

Twenty million women are being recruited by the women's national economic committee with headquarters in New York, in a nationwide effort to reduce the high food prices. Heading the organization is Miss Helen Boswell, a prominent republican woman of New York. Women of the country are being rapidly organized into crusading squads to interview the retailers to find out whether or not the high prices are due to their greed or to the man higher up.

"Women realize that they have the power in their own hands of lowering food prices without waiting for national legislation which may or may not remedy the situation," said Miss Boswell. "If the trouble of high prices is due to the retailer, we want to know that. I am confident we shall see a change soon," she added.

TONOPAH & GOLDFIELD RAILROAD COMPANY

ANNOUNCEMENT!

Pending the outcome of the present labor situation, we have decided to suspend our "public call" which has been held at 8:30 o'clock every evening. We are prompted to do this as the public mind is centered upon the strike situation and the uncertainty of its settlement and, therefore, are thinking more of their immediate necessities rather than recreation.

We believe the present labor dispute will soon be amicably settled. There is too much at stake for differences to exist long. The public call is a great success and under ordinary conditions Tonopah will make the quotations for New York and San Francisco.

We have come to Tonopah to stay; we believe the future of the Divide District is assured. No other mining district so far developed has shown such extensive high grade ore in so short a time.

Nevada from a mining standpoint is yet unknown and its possibilities prodigious.

We thank the public for their interest in our "public call" and assure them it will be resumed. Our San Francisco, New York, Philadelphia and Southern connections enable us to promptly execute your orders in all markets. We will continue to operate our brokerage department and will be in a position to give you service on your buying and selling orders unexcelled by other brokerage firms.
